We are a family-run business and our clients are a part of our extended family. Our group of highly trained therapists provides speech therapy, occupational therapy and physical therapy to our primarily pediatric population, including children with Autism and Developmental Delays. As parents ourselves, we are exposed to the extraordinary challenges that parenting a special needs child can place on a family. We offer social skills groups, handwriting camps, and parent education classes.
Call for fee.

Parent-assisted intervention focusing on children, teens, and young adults who are having difficulty making or keeping friends. The intervention is 90 minutes each week over a 14-week period. The group focuses on skills like having conversations, using electronic forms of communication, choosing appropriate friends, handling teasing, bullying and other forms of social rejection, handling arguments, and having successful get-togethers. Trained by UCLA in evidence-based PEERS program.
